“CPR Overview”: Introduction into the RECOVER initiative, with a review of the theory of Basic and Advanced Life Support for the veterinary patients.

“Diversity and Inclusion in Veterinary Medicine”: Information will be provided on current diversity and inclusion trends in veterinary medicine. Access to animal care and the cost of care will be presented as several barriers for people from low socioeconomic and/or underrepresented communities. Finally, the role veterinary professionals (veterinary technicians, veterinary nurses, etc.) can play in breaking barriers associated with the profession will be discussed.
